DEPARTMENT OF INFORMATION SCIENCE & ENGINEERING

CERTIFICATE

This is to certify that the miniproject report entitled ***TOURISM MANAGEMENT SYSTEM*** has been successfully completed by **ASHWINI BHAT** bearing USN **1RN16IS021** presently V semester student of **RNS Institute of Technology** in partial fulfillment of the requirements as a part of the DBMS Laboratory for the award of the degree ***Bachelor of Engineering in Information Science and Engineering*** under **Visvesvaraya Technological University, Belagavi** during academic year 2018 – 2019. It is certified that all corrections/suggestions indicated for Internal Assessment have been incorporated in the report deposited in the departmental library. The mini project report has been approved as it satisfies the academic requirements as a part of DBMS Laboratory for the said degree.

ABSTRACT

The project Tourism management system enable tourists to interface with tourist database maintained using personal computers. A client system running on the user computers would connect to a central server, over an internet connection. The user could then use an http protocol from a personal computer to connect to the central server, and issue request for booking a trip.

This database system is a web enabled software that helps in the management of tourist database. It adopts the methodology to tackle the trip management. It involves the management of multitude of activities such as studying tour destination, planning the tour, making travel arrangements and providing accommodation. This system allows the user of the system to access all the details such as whether, accommodation information, location information, events, etc. freely.

ACKNOWLEDGMENT

The fulfilment and rapture that go with the fruitful finishing of any assignment would be inadequate without the specifying the people who made it conceivable, whose steady direction and support delegated the endeavours with success.

I would like to profoundly thank **Management of RNS Institute of Technology** for providing such a healthy environment to carry out this mini-project work.

I would like to thank our beloved Director **Dr. H N Shivashankar** for his confidence feeling words and support for providing facilities throughout the course.

I would like to express my thanks to our Principal **Dr. M K Venkatesha** for his support and inspired me towards the attainment of knowledge.

I wish to place on record my words of gratitude to **Dr. M V Sudhamani**, Professor and Head of the Department, Information Science and Engineering, for being the enzyme and master mind behind my mini-project work.

I would like to express my profound and cordial gratitude to my Faculty incharge **Mr. R Rajkumar**, Assistant Professor, Department of Information Science and Engineering for his valuable guidance, constructive comments and continuous encouragement throughout the mini-project work.

I would like to express my profound and cordial gratitude to my guide **Mrs. Asha M V** Assistant Professor, Department of Information Science and Engineering for her valuable guidance in preparing mini-project report.

I would like to thank all other teaching and non-teaching staff of Information Science & Engineering who have directly or indirectly helped me to carry out the mini-project work.

And lastly, I would hereby acknowledge and thank my parents who have been a source of inspiration and also instrumental in carrying out this mini-project work.

ASHWINI BHAT
USN: 1RN16IS021
